A Warm Welcome to Our New Main Contractors

Jamieson Contracting Support Local Supply Chains

Their vision is to contribute to the development of a sustainable future for our local communities by leaving a legacy of the highest quality construction projects for both the public and private sectors that will benefit all. Builder's Profile supports the local supply chain choice. Jamieson users can select the trades they require and where they want them.

Welcome Uponor - Subcontractor and Main Contractor Members

Based in Watford, they are our latest main contractor to utilise both sides of the Builder's Profile service; publishing their Premium Profile to promote their professional company as qualified AND accepting the Profile as their own supply chain compliance measure.

Our Foundation Supply Management Service

Our 'Off the shelf' Foundation service includes all the essentials required for collecting and managing your supply chain compliance information. It's free to our Members and so easily set up. The service is perfectly suited to companies with a small to medium sized supply chain, looking to move from a manually maintained system.

[All the Foundation Info](#)

Contact our Main Contractor Services team on mcs@buildersprofile.co.uk or 01305 831710 for an introductory chat. Alternatively 'Register your Interest' below and they'll be in contact shortly.

Making SSiP Accreditation Applications Easier with SMAS

We, at Builder's Profile love to reduce duplication, which is why we're excited about our SMAS application service. A subcontractor Profile is a SMAS Health and Safety accreditation application. The service reduces duplication and may suit many members including:

- Companies looking for their first SSiP Accreditation
- Members needing to renew their SSiP or SMAS Certification
- Subcontractors registering an existing SSiP member scheme certificate

Feature Updates and our How-to Docs

Documents

We are soon to be releasing a Basic Profile documents update that will improve the way documents are displayed for individual main contractor Profiles; making document management tailored to the contractor(s) you are completing for. Please have a read through our [How To doc](#) for all the information.

New Completion Guide

We are making improvements to the way the Profile manages the completion status. The 'Red Stars' will be replaced with a 'Completion Guide'. This dynamic feedback system updates as you complete the Profile questions and move through the tabs and sections - Red cross icons indicate your chosen contractor(s) required questions. This feature update will be released shortly. The [Completion Guide How To doc](#) contains all the information.

Builder's Profile and the Local Supply Chain

We're all keen to see our taxes spent locally where they can deliver most benefit to our communities and have the greatest impact on them. National Government, Local Authorities and commissioning clients can all insist on local supply chain component – which is what we want.
