

BUILDER'S PROFILE

17 January 2019

Interserve Construction Choose Builder's Profile

Interserve plc is a FTSE listed company with gross revenues of £3.7 billion and a workforce of around 75,000. They have a massive 2,000 plus construction supply-chain servicing clients over public and private sectors and working on projects from house building across rail to health, education, office and industrial. As of October 2018, Interserve has been using the Builder's Profile PQQ and Compliance platform.

What Interserve's new project, certification and safety awards demonstrate is a sophisticated business where collaboration is key and with a diverse range of complex projects to deliver and a huge supply chain to manage effectively and safely. But even safety conscious businesses need to make.... [More >>](#)

How Joining Main Contractors Onboard Their Supply Chain

When a Main Contractor joins us, the first step is to onboard their supply chain. To begin the invitation process their supply chain list is matched against the database where members fit into 3 categories:

- Existing Supply Chain Premium Members
- Existing Supply Chain Basic Members
- Subcontractors new to Builder's Profile

Then

- New supply chain subcontractors are sourced

For Premium members: Profiles are automatically available to the Contractor so the pre-qualification process can begin. With the new contractor selected as a client, re-submission may be required to ensure the latest company information is available to them.

For Basic Members: Submit Profile Requests may be received. The new contractor can be selected as a client and a Profile be completed, submitted and maintained.

So far this month our main contractors have won contracts for over £171 mil. 1000's of Join, Update and Submit requests are emailed out each month to meet their project opportunities. Subcontractors are notified when overall approved and successfully added to the supply chain.

Support Team Tip: Maintaining your data is so very important for seamless re-approval. Account contacts are automatically notified when important information is due to expire.
